Education

M.S.C.E.T Engineering College ,Surat	October 2022 - March
Bachelors of Engineering - Computer Engineering	2026 CPI : 8.17
Sankalp Science School, Dhanera, India	June 2019 - March
Class XII - PCM In GSEB	2021 Percentile : 80.27

- Language: JavaScript, JAVA
- Frontend: HTML, CSS, React.js, Redux, Javascript(ES6), Tailwind CSS
- Backend: Node.js, Express.js, REST APIs, Docker,aws EC2,Serverless,Lambda,Api
- Databases : MongoDB, sequlize (mysql) ,redis

Projects

PodcastBlogweb: ReactJs,nodeJs,ExpressJs,ContextApi,MongoDB   [PodcastBlog](#)

- Created an engaging blogging platform utilizing React.js, Node.js, MongoDB, and Express, effectivel merging blogs with podcasts.
- Crafted a responsive user interface featuring real-time updates and dynamic comparisons between ancient and modern technologies.
- Engineered secure backend APIs and enhanced the platform for scalability and performance across various devices.

TempMail.sbs : ReactJs,nodeJs,SMTP,redis ,seo,ExpressJs   [tempmail.sbs](#)

- Developed and deployed a privacy-focused temporary email website with auto-expiring inboxes and minimalistic UI.
- Gained 1400–1800+ users organically within just 30 days, through effective SEO and performance optimization.
- Achieved a 90%+ performance score (Lighthouse) ensuring fast, responsive, and smooth user experience.
- SEO-optimized content and structure resulted in high discoverability and growing user base without paid ads.

Universal Truth , Tech Stack : EJS, NodeJs, Express, MongoDB   [Universal Truth](#)

- Designed and developed Universal Truth, an information-based web application showcasing comparisons between ancient Indian and modern technologies.
- Integrated secure user authentication and dynamic data rendering for a seamless browsing experience.
- Implemented interactive features, including a comparison section with detailed fields for technologies, working models, and summaries.
- for this website i write more than 12 blog on ancient indian tecg, ancient indian and mordern competion,topic like education,psycology etc

Experience

Internship/Project Work |

Full-Stack Developer Intern

Duration: January 2025 – June 2025 (6 Months)

Tech Stack: Node.js, Express.js, MySQL, Sequelize, HTML, CSS, JavaScript,react

- Developed and optimized RESTful APIs using Node.js, Express.js, and Sequelize ORM for backend services.
- Managed MySQL database operations, wrote optimized queries, and implemented CRUD operations, transactions, and migrations.
- Built responsive and interactive frontend interfaces using React.js, integrating dynamic data from backend APIs.
- Ensured smooth integration between frontend and backend, improving overall user experience.
- Optimized application performance and refactored codebase for better scalability and maintainability.
